

The All

[Verse 1]

Sand cuts my eyes
Dust from old stars
Steps break in heat
Dunes breathe like lungs

[Verse 2]

Wind bends the air
Like quantum wire
Pulls at my skin
Past unseen lines

[Pre-Chorus]

Every grain writes
Symbols in blood

[Chorus]

Pain breaks my form
Pain builds me new
Not only flesh
I am the All
Pain breaks my form
Pain builds me new
Not only breath
I am the All

[Verse 3]

Salt on my mouth
Skin split by light
The burning sun
Falls like a core

[Chorus]

Pain breaks my form
Pain builds me new
Not only flesh
I am the All
Pain breaks my form
Pain builds me new
Not only breath
I am the All

[Verse 4]

Here I give in
Weight pulls me low
Here in the void

Pressure then peace

[Pre-Chorus]

Every grain binds
Close to my soul

[Chorus]

Pain breaks my form
Pain builds me new
Not only flesh
I am the All
Pain breaks my form
Pain builds me new
Not only breath
I am the All

[Verse 5]

Silence in sand
Moves through my chest
I am a point
Inside the field

[Chorus]

Pain breaks my form
Pain builds me new
Not only flesh
I am the All
Pain breaks my form
Pain builds me new
Not only breath
I am the All

[Outro]

Now I can see
All parts are mine
I am the One
I am the All
